# ENERGY SAVINGS

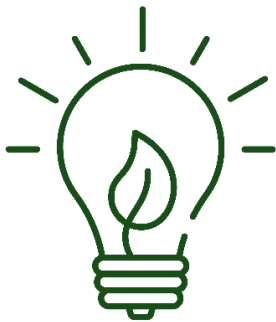

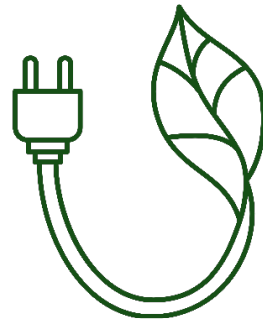

## Training and awareness

AC Ambassadeur employees are made aware and trained from the moment they join the company in the eco-responsible gestures to be used on a daily basis for good management of water, electricity and waste, as well as in the social behaviour to be respected.

## Water saving

In order to reduce water consumption, the AC Ambassadeur has installed a foaming system on all the hotel's taps and showerheads. Presence detectors have also been installed on the taps of the public toilets. An "Ecology Card" is available in each bathroom to inform guests that bath linens may not be changed daily and guests are encouraged not to request room service every day.

## Reduced energy consumption

The energy-consuming incandescent bulbs in the hotel's rooms, lounges and common areas are gradually being replaced by LEDs, reducing consumption by more than 70%. Presence detectors have been installed in the less frequented areas and the exterior lighting, as well as the hotel sign, are programmed with a twilight detection.

## Earth Hour

The hotel participates in the *WWF's* international mobilisation every year on the last weekend of March.

The AC Ambassadeur is therefore plunged into darkness for one hour each year, to participate in energy saving.

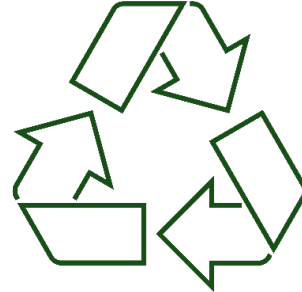

# ECOLOGY

## Waste management

The AC Ambassadeur is committed to waste management and recycling practices in the various departments of the hotel:

selective sorting in the staff areas and in the rooms, replacement of care products by refillable wall-mounted dispensers, cardboard straws, disposable, recyclable and compostable tableware, eco-label toilet paper, dematerialised order forms and invoices, use of water fountains and recyclable water bottles, eco-label cleaning products (except during COVID)...

The hotel also works with companies to recycle ink cartridges, computer equipment, Nespresso capsules, batteries and used oil...

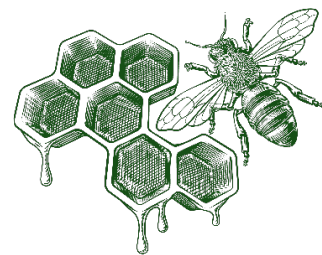

## Local and national supply

The hotel's restaurant uses organic and local products (eggs, Mediterranean fish) whenever possible. In order to reduce the carbon impact, the consumption of beef is mostly replaced by chicken.

90% of the supply is made in France.

## AC Ambassadeur Antibes Honey

The hotel has a beehive and produces its honey in the Val-de-Chalvagne. The honey obtained has the AB 100% organic label, certified by Ecocert. The hives allow to participate in the protection of bees and their ecosystem.

## World Clean Up Day

Each year, the AC Ambassadeur organises two days dedicated to the cleaning of a beach or shoreline in the region, as part of the World Clean-up Day. This operation is launched by the association *Let's Do It Foundation* to fight against pollution.

# CHARITABLE INITIATIVES

## France Cancer Association

By collecting all corks, fake corks and champagne capsules, the AC Ambassadeur helps raise funds for scientific and medical cancer research.

## Les Bouchons d'Amour Association

The AC Ambassadeur participates in the collection and recycling of plastic caps and lids, which help children from Madagascar Island and allow to purchase equipment for people with disabilities.

## Adrien Association

Thanks to a fundraising event organised during the hotel's "Associate Week", funds are donated to the *Adrien* association, based in the region. The association aims to improve the daily life of sick children and their families by offering them a little comfort.

## Secours Populaire

Each year, the AC Ambassadeur participates in the *Raid Interhôtel* of the région. This event, which is committed to *Secours Populaire*, raises funds to support victims of poverty, natural disasters and conflicts. The hotel also collects clothes to donate to this association.

## Lunettes Sans Frontière Association

AC Ambassadeur teams help collect eyeglasses and sunglasses, which are sent to clinics, eye clinics and mission stations in poor countries to benefit the visually impaired in need.

## S.O.S Village Association

The AC Ambassadeur participates every year for 2 months in the "You eat, We give" action. It consists of donating 1 euro per meal ordered in the hotel restaurant to finance the SOS Village Youth Assistance Programme, which promotes access to employment and integration.

## Green Key

The hotel has been awarded the prestigious Clé Verte label in recognition of its commitment to a sustainable development policy, raising awareness among our staff and guests about ecology, energy, water, waste and purchasing management.

Raising awareness & training about environmental practices.

We are committed to protecting and preserving our planet for future generations. With this in mind, we have set up awareness and training programs for our staff, as well as recommendations for our customers, to encourage environmentally-friendly practices.

## C.C.A.S Antibes Association

Each year, toilet kits are made by the AC Ambassadeur teams and are offered for Christmas to an association helping homeless people.

## Local artists

The AC Ambassadeur is a hotel committed to promoting culture and art. It regularly exhibits works by local artists in its lobby and public areas.
